Presentation and Q&A at 7:30 p.m.

Archdiocesan Pastoral Center Auditorium

222 N. 17th Street, Philadelphia, PA 19103
(Free parking next to building. Use 17th Street.)

NaPro: A Quiet Revolution

Film explains that there is a viable alternative to birth control to treat women's health problems and a far superior treatment for infertility than in-vitro fertilization (IVF). The Film looks at a new women's health science of Natural Procreative Technology (NaPro Technology).

NaPro: A Quiet Revolution is a new documentary, produced by Black Friars Media, an apostolate of the Dominican Providence of St. Joseph.

Presentation and Q&A Session

Come to an information session on NaPro Technology (NaPro) and the Creighton Model FertilityCare system. NaPro is life-affirming health care for women developed from thirty years of research at the Pope Paul VI Institute. NaPro offers real help for numerous conditions including infertility, repetitive miscarriages, hormonal imbalances and menopause.
